Social Jetlag and Obesity

Till Roenneberg, ^{*} Karla V. Allebrandt, Martha Merrow, and Céline Vetter

(Current Biology 22, 939–943; May 22, 2012)

It has come to our attention that one of the formulas in the Supplemental Experimental Procedures section “Chronotype” in the online Supplemental Information for this article contained a small but significant typo as originally published. The original formula read “ $MSF_{sc} = MSF - (SD_f - SD_w)/2$ ”; the correct formula is “ $MSF_{sc} = MSF - (SD_f - SD_{week})/2$.” That is, “ SD_w ” stands for “sleep duration on workdays”; the formula should refer to “ SD_{week} ,” representing the average “sleep duration across the seven-day week.” This error has now been corrected in the Supplemental Information online. The authors apologize for the error and any inconvenience that may have resulted.
